Fail Safe Device

## UL 248-14 • 125VAC • 125VDC • Super-Time-Lag TT

## Description

- 5 rated currents from 5 A to 20 A
- Square design: $5.3 \times 16$
- Impermeable to potting compound used to achieve hermetic seal for use in intrinsically safe applications according to ATEx and IECEx requirements.

## Unique Selling Proposition

- Suitable as Fail Safe Device
- Very high melting integral
- Precisely defined melting times (min/max)

See below
Approvals and Compliances

## Applications

- Avionics
- Wire protection
- Fail-Safe Applications
- Suitable for motor drive applications with medium to long motor cables

## Other versions on request

- Different Up Screenings
- Extensive Test Reports
- Visual Inspection according MIL-PRF 55342

Application Note Primary Protection in Equipmentwith further information on increased Pulse Strength and their test conditions according to international standards see Impulse Withstand Voltage

## Technical Data

| Rated Voltage | $125 \mathrm{VAC}, 125 \mathrm{VDC}$ |
| :--- | :--- |
| Rated current | $5-20 \mathrm{~A}$ |
| Breaking Capacity | up to 1000 A |
| Characteristic | Super-Time-Lag TT |
| Mounting | PCB,SMT |
| Admissible Ambient Air Temp. | $-55^{\circ} \mathrm{C}$ to $125^{\circ} \mathrm{C}$ |
| Climatic Category | $55 / 125 / 21$ acc. to IEC $60068-1$ |
| Material: Housing | Ceramics |
| Material: Terminals | $\mathrm{Ni} /$ Sn-Plated Copper Alloy |
| Unit Weight | 1.42 g |
| Storage Conditions | $0^{\circ} \mathrm{C}$ to $40^{\circ} \mathrm{C}$, max. $70 \%$ r.h. |
| Product Marking | 回, Rated current, Voltage, Characteri- |

| Soldering Methods | Reflow <br> Soldering Profile |
| :--- | :--- |
| Solderability | JESD22-B102E, Method 1 |
| Resistance to Soldering Heat | JEDEC J-STD-020 |
| Moisture Sensitivity Level | MSL 1, J-STD-020 |
| Thermal Shock | MIL-STD-202, Method 107 |
| Operational Life | MIL-STD-202, Method 108 Condition F |
| Load Humidity Test | MIL-STD-202, Method 103 |
| Moisture Resistance Test | MIL-STD-202, Method 106 |
| Vibration, High Frequency | MIL-STD-202, Method 204 Condition C |
| Mechanical Shock | MIL-STD-202, Method 213 Condition C |
| Resistance to Solvents | MIL-STD-202, Method 215 |
| Temperature Cycling | JESD22 Method JA-104 |
| Board Flex | AEC-Q200-005 |

## Approvals and Compliances

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in Details about Approvals

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

## Approvals

The approval mark is used by the testing authorities to certify compliance with the safety requirements placed on electronic products.
Approval Reference Type: UMT-W

| Approval Logo | Certificates | Certification Body | Description |
| :--- | :--- | :--- | :--- |
| C US | ULApprovals | UL | UL File Number: E41599 |

## Product standards

Product standards that are referenced

| Organization | Design | Standard | Description |
| :--- | :--- | :--- | :--- |
| IEC | Designed according to | IEC 60127-7 | Miniature fuses - Part 7: Miniature fuse-links for special applications |
| (HL) | Designed according to | UL 248-14 | Low voltage fuses - Part 14: Additional fuses |

## Application standards

Application standards where the product can be used

| Organization | Design | Standard | Description |
| :--- | :--- | :--- | :--- |
| IEC | Designed for applications acc. | IEC/UL 60950 | IEC 60950-1 includes the basic requirements for the safety of information |

## Compliances

The product complies with following Guide Lines

| Identification | Details | Initiator |
| :--- | :--- | :--- |
| C | CE declaration of conformity | SCHURTER AG |

## Description

The CE marking declares that the product complies with the applicable requirements laid down in the harmonisation of Community legislation on its affixing in accordance with EU Regulation 765/2008.

Directive RoHS 2011/65/EU, Amendment (EU) 2015/863

The law SJ / T 11363-2006 (China RoHS) has been in force since 1 March 2007. It is similar to the EU directive RoHS.

SCHURTER strives to offer our customers halogen free products.

On 1 June 2007, Regulation (EC) No 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals 1 (abbreviated as "REACH") entered into force.
