PRCM Series

Control output diagram

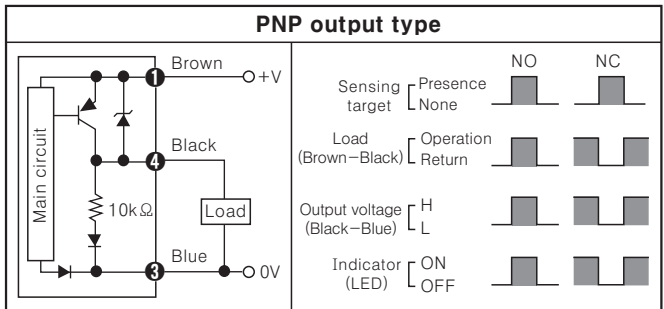

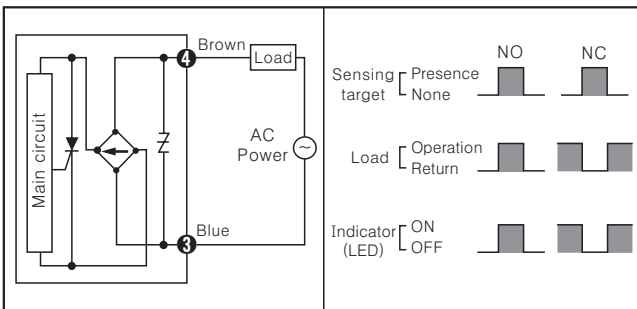

DC 2-wire type

DC 3-wire type

AC 2-wire type

*The number in a circle is pin no. of connector.

Wiring diagram

DC 2-wire type (Standard type)

*Pin ①, ② are N.C (Not Connected) terminals.
*For DC 3-wire type connector cable, it is available to use with black wire (24VDC) and blue wire (0V).

DC 2-wire type (IEC standard type)

*The pin arrangement of connector applying IEC standard is being developed.
*Please attach "I" at the end of the name of standard type for purchasing the IEC standard product. Ex) PRCMT12-4DO-I
*The connector cable for IEC standard is being developed. Please attach "I" at the end of the name of standard type. Ex) CID2-2-I, CLD2-5-I

DC 3-wire

*Please fasten the cleat of connector not to shown the thread. (0.39~0.49N·m)

AC 2-wire

*In AC inductive type, ② and ③, ① and ④ are connected inside of the connector cable.

*Please fasten the vibration part with Teflon tape.
*See J-51 about IEC standard connector wires and specifications.
