

## Advantages of the W199 Power Relay

The Magnecraft 199 relay is the powerhouse open relay. Standard parts can handle up to 40A and there are options to handle up to 50A. The device is available in a variety of configurations and coil voltages. Available with up to two poles, double and single throws, insulated and non-insulated double make and/or break, and several switching forms. Options include auxiliary 10A switches with quick connects or screw terminals, quick connects on the coils and/or contacts, tungsten stationary contacts, fine silver contacts, pressure wire connectors on the output terminals and blowout magnets near the contacts for high voltage DC switching.

Optional Cover  
(50-1289-1)  
See Section 3 p.22

- Available Blowout Magnets for High DC Switching.
- Available Auxiliary Switches.
- Can be configured with 0.25 inch Q.C. Connections.
- Up to 50A Switching.
- Available Metal Enclosure.

14 AWG for 40A, 11 AWG for 50A Configurations  
For Superior Load Handling.

Combo-Head Screws  
For Simpler Hook-Up.

Wide Array of Options & Configurations  
For Specific Control Needs.

Riveted Construction  
To Sustain Years of Use.

Wide Selection of Coil Voltages  
To Fit Most Applications.

Auxiliary Switch

**W199AX-14**
