- Compact 8 mm (0.31 in) housing mounts almost anywhere
- Crosstalk avoidance circuitry for applications with multiple sensors
- LED status indicators for Power ON, Output Overload, Signal Received, and Marginal Signal
- Models with black housing are available

WARNING: Not To Be Used for Personnel Protection

Never use this device as a sensing device for personnel protection. Doing so could lead to serious injury or death. This device does not include the self-checking redundant circuitry necessary to allow its use in personnel safety applications. A sensor failure or malfunction can cause either an energized or de-energized sensor output condition.

³ For black housing, add prefix **D** to the model number, for example **DQ12AB6FF15**.

⁴ **Q3 models:** 3-pin Pico-style (M8 threaded) 150 mm (6 in) pigtail QD. Not available for bipolar models. For 9 m (30 ft) cable, add suffix **W/30** to the model number, for example, **Q126E W/30**. For 4-pin Pico-style (M8 threaded) 150 mm (6 in) pigtail QD, add suffix **Q** to the model number, for example, **Q126EQ**. For 4-pin Euro-style (M12 threaded) 150 mm (6 in) pigtail QD, add suffix **Q5** to the model number, for example **Q126EQ5**.

⁵ Retroreflective range is specified using one model **BRT-60X40C** retroreflector. Actual sensing range may be more or less than specified, depending upon efficiency and reflective area of the retroreflector(s) used.
