HO 50 ... 250-S/SP33 series

Insulation coordination

| Parameter | Symbol | Unit | Value | Comment |
| :---: | :---: | :---: | :---: | :---: |
| Rms voltage for AC insulation test $50 / 60 \mathrm{~Hz} / 1 \mathrm{~min}$ | $U_{\text {d }}$ | kV | 4.3 |  |
| Impulse withstand voltage $1.2 / 50 \mu \mathrm{~s}$ | $\hat{U}_{\text {w }}$ | kV | 8 |  |
| Partial discharge extinction rms voltage @ 10 pC | $U_{\text {e }}$ | V | > 1200 | Busbar / Secondary |
| Clearance (pri. - sec.) | $d_{\text {c }}$ | mm | > 8 | Shortest distance through air |
| Creepage distance (pri. - sec.) | $d_{\text {cp }}$ | mm | > 8 | Shortest path along device body |
| Clearance (pri. - sec.) | - | mm | > 8 | When mounted on PCB with recommended layout |
| Case material | - | - | Vo | According to UL 94 |
| Comparative tracking index | CTI |  | 600 |  |
| Application example | - | - | $\begin{gathered} 600 \mathrm{~V} \\ \text { CAT III PD2 } \end{gathered}$ | Reinforced insulation, non uniform field according to EN 50178, EN 61010 |
| Application example | - | - | $\begin{gathered} 1000 \mathrm{~V} \\ \text { CAT III PD2 } \end{gathered}$ | Based insulation, non uniform field according to EN 50178, EN 61010 |
| Application example | - | - | $\begin{gathered} 600 \mathrm{~V} \\ \text { CAT III PD2 } \end{gathered}$ | Simple insulation, non uniform field according to UL 508 |

## Environmental and mechanical characteristics

| Parameter | Symbol | Unit | Min | Typ | Max |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Combient operating temperature | $T_{\mathrm{A}}$ | ${ }^{\circ} \mathrm{C}$ | -40 |  | 105 |
| Ambient storage temperature | $T_{\mathrm{s}}$ | ${ }^{\circ} \mathrm{C}$ | -40 |  | 105 |
| Mass | $m$ | g |  | 32 |  |

HO 50

## Electrical data HO 50-S/SP33-1106

At $T_{\mathrm{A}}=25^{\circ} \mathrm{C}, U_{\mathrm{C}}=+3.3 \mathrm{~V}, R_{\mathrm{L}}=10 \mathrm{k} \Omega$ unless otherwise noted (see Min, Max, typ. definition paragraph in page 12).

| Parameter | Symbol | Unit | Min | Typ | Max | Comment |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Primary nominal rms current | $I_{\text {PN }}$ | A |  | 50 |  |  |
| Primary current, measuring range | $I_{\text {PM }}$ | A | -125 |  | 125 |  |
| Number of primary turns | $N_{\text {P }}$ | - |  | 1 |  | See application information |
