

Type ESB

Low Voltage Products and Systems

We ensure safety and comfort for everyday life by bringing electric power to domestic appliances, lighting and heating.

Through our comprehensive range of enclosures, line protection equipment, wiring accessories and various other components to complete any electrical

installation we cover the full spectrum of equipment required for control and protection of all domestic and residential installations.

With this EIB system all electrical functions in a home can now be programmed and remotely controlled.

Domestic and residential buildings

Commercial and industrial buildings

All over the world office buildings, hospitals, hotels, public buildings, shopping centers, sport complexes and city lighting projects are equipped with ABB Low Voltage Products and Systems.

From switchboard to light switch we cover the complete range of equipment required for control and protection of electrical installations.

Architects, consultants, builders and contractors appreciate the performance/cost ratio provided by our products.

They have made ABB a well known reference for high quality and extremely reliable electrical equipment.
