

# Complete and reliable solar circuit protection

*Powering Business Worldw*

## Benefits of Eaton’s Circuit Protection Solutions

### Complete and Reliable Circuit Protection for Photovoltaic (PV) Balance of System

Eaton offers the industry’s most complete and reliable circuit protection for PV balance of system, from fuses, fuse holders and circuit breakers to safety switches and surge protection—allowing for comprehensive overcurrent and overvoltage protection anywhere in the PV system.

### Unmatched Global Offering

Eaton offers a range of solar products with ratings up to 1500Vdc as well as UL, IEC, CSA and CCC certifications specific for PV applications—ensuring fully supported and seamless global installations.

### Legacy of Technical Expertise

For more than 100 years, Eaton has protected equipment and businesses from electrical hazards. We are the experts in safe system design and application. Our team of Application Engineers and Sales Engineers are dedicated to protecting your system, from specification to delivery. Additionally, our Paul P. Gubany Center for High Power Technology is one of the industry’s most comprehensive testing facilities, and is available to test your systems to global agency standards.

### Safe. Reliable. Complete.

Over the last 50 years, solar PV systems have evolved into a mature, sustainable and adaptive technology.

The unique nature of PV system power generation necessitates the need for new and effective electrical protection products for overcurrent, overvoltage and isolation events.

With an Eaton protected electrical system, you can optimize your renewable energy power generation capacity, knowing your equipment is safe. We are a single source for the entire AC and DC circuit protection and disconnecting means. We work closely with solar equipment manufacturers and, through coordinated research and development, have produced revolutionary new fuses and circuit breakers that, combined with a range of surge protective devices, offer complete protection for PV systems.

As a single source provider with 100 years of proven technology, we provide complete circuit protection solutions that are safe and reliable so you can take full advantage of converting sunlight into usable energy while working with a bankable, industry-leading manufacturer.
