

Cyclon®

**Wherever the world
needs stored energy,
EnerSys® is there.**

Powered by more than 100 years of expertise, EnerSys® is the world's largest industrial battery manufacturer, operating 21 facilities worldwide. Along with manufacturing and distributing a wide range of reserve power and motive power batteries, chargers, power equipment, and battery accessories, EnerSys provides unmatched aftermarket and customer support to its customers in over 100 countries worldwide.

The EnerSys® plant in Warrensburg, Missouri covers 32,000 square feet and is situated on 33 acres.

EnerSys® Value-Added Services

In addition to our manufacturing capability, EnerSys® is proud to provide its customers with the following services:

- Customized manufacturing design
- Battery recycling
- Online technical information
- Charging support
- Product testing
- On-site technical seminars
- Battery samples
- Application engineering
- Technical documentation
- Charger evaluation to determine compatibility with CYCLON® batteries

Applications

Batteries from the EnerSys "pure lead" family are used in a wide variety of standby and portable/cyclic applications including those in:

- Telecommunications
- Electronics
- Uninterruptible power supplies
- Defense installations
- Aviation (may require FAA or other appropriate agency certification/approval for installation in aircraft)
- Computer back-up
- Electric vehicles
- Medical equipment
- Solar power
- Lawn and garden equipment
- Extreme temperature environments (-65°C to +80°C or -85°F to +176°F) for single cells
