

28 1000 volts class power transistor modules

- Terminals layout in which drive wiring and power wiring do not come across.
- Suited for motor control applications with 380 to 440V volts inputs.

Device type	V _{CB0}	V _{CE0}	V _{CEX}	I _c	P _c	h _{FE}	I _c		Switching time (Max.)			Package	Net mass Grams	Equivalent circuit Page 32, 33

29 1200 volts class power transistor modules

- Power transistors and free wheel diodes are built into one package.
- Suited for motor control applications with 440 to 480 V AC inputs and power supplies.
- Terminal layout in which drive wiring and power wiring do not come across.

Device type	V _{CB0}	V _{CE0}	V _{CEX}	I _c	P _c	h _{FE}	I _c		Switching time (Max.)			Package	Net mass Grams	Equivalent circuit Page 32, 33
